

NYSERDA Utility Energy Registry Monthly ZIP Code Energy Use: 2016 - 2021

Data Dictionary

Data Label	Data Type	Data Description
year	Date	Four-digit integer describing calendar year
data_class	Text	Describes energy type; either electricity or natural_gas
data_field	Text	Name of UER energy metric defined per the “PSC Order Adopting the Utility Energy Registry” CASE 17-M-0315. For more details see http://documents.dps.ny.gov/public/MatterManagement/Cas eMaster.aspx?MatterCaseNo=17-M-0315
zip_city	Text	Name of city defined by US Postal Service. A value of #N/A? represents missing data
month	Numeric	Integer 1-12 describing calendar month, 1 = Jan, and so on
geometry_id	Text	US postal ZIP code
zip_code	Text	US postal ZIP code
state_2	Text	State name abbreviation. A value of #N/A? represents missing data
uer_id	Numeric	Unique ID used for a utility in the UER data schema. 2 is Central Hudson, 3 is Consolidated Edison, 4 is National Fuel, 5 is National Grid, 6 is New York State Gas and Electric (NYSEG), 7 is Orange and Rockland, and 9 is Rochester Gas and Electric (RG&E)
data_stream	Text	The geospatial layer and reporting frequency associate with the data. “community” means incorporated municipality, and county and ZIP code are as stated
utility_display_name	Text	The reporting utility name in text form
value	Numeric	Value of “data_field”. Data are geospatially aggregated data in the municipality across the associated calendar month. Blank cells mean that it was not reported by the utility, -999 means the data was withheld for privacy concerns, all other values are the reported value of the “data_field”. UER data are prepared by utility companies and submitted to NYSERDA. Utilities are solely responsible for the accuracy and quality of UER data, and NYSERDA does not warrant or guarantee the accuracy of data submitted to the UER.
